

Product Data Sheet

Bracton Descaler

Bracton Descaler is a high performance, fast acting scale scum build up remover. Formulated specifically to hygienically maintain commercial food equipment, Bracton Descaler is fume free and can be added directly to commercial glass washers and dishwashers on a weekly basis. Unlike other descalers, which are manufactured with mineral salt acids, Bracton Descaler will rinse freely and not corrode stainless steel surfaces.

Product Description

In order to extend the life of any commercial ware washing machine, the use of Bracton Descaler is essential for hygienic maintenance of food service equipment. Bracton Descaler will rejuvenate and clean calcium, mould and bacterial build up from commercial dishwashers and glasswashers without corroding internal fittings and components.

Strong disinfecting qualities in Bracton Descaler will clear smelly drains, removing odour causing mould and bacteria.

Ideal for use in:

- Commercial dishwashers
- Commercial glass washers
- Kettles/Urns
- Coffee Machines
- Any stainless steel/metal equipment where scale build up is present

Characteristics

- Corrosive
- User friendly
- Fast acting
- Rinses freely
- Specifically targets calcium build up
- Disinfects while cleaning
- Kills harmful bacteria
- Not a mineral salt acid

Safety:

Appropriate personal protective equipment must be worn. Always read the instructions on the label before use.

Tools and Equipment:

- Gloves
- Goggles
- Measuring container
- Small brush (if detail cleaning)
- Scouring Pad (if detail cleaning)

Directions For Use:

Re-circulating

Add 500ml of Bracton Descaler directly to the wash bay.

Non Re-circulating

Apply Bracton Descaler with a scouring pad or small brush. Clean inside of machine and door surround thoroughly. Wipe any excess product from the out side of the doorsills with a clean damp cloth. To rinse the inside of the machine run through 4-5 cycles.

Pack Sizes

5 Lt, 3 x 5 Lt carton and 25 Lt drums.
