

Product Data Sheet

Bracton Pink – Powdered Soaking Concentrate

Bracton Pink is a fast acting soaking concentrate for the removal of stubborn stains from glassware, coffee cups, crockery, cutlery and other food service equipment. Bracton Pink can be used as a manual soaking solution or with the Bracton BR2 and MR glass washers.

Product Description

Concentrated soaking powder with descaling capabilities, Bracton Pink will remove build up and calcium stains when mixed with water into a soaking solution. Ideal for use in hard water areas.

Ideal for use on:

- Glassware
- Crockery
- Cutlery

Characteristics:

- Removes stubborn stains easily
- Fast acting
- Deep cleaning action
- Economical

Tools / Equipment:

- Gloves
- Soaking Tub/Sink
- Bracton Glass Washing Machine

Safety:

When using Bracton Pink follow safety directions on the label and wear appropriate personal protective equipment.

Directions for use:

Soaking:

Add 2 scoops of Bracton Pink per 30 litres of water. Water should be 60 - 70 C degrees (140-158 F degrees) in a plastic tub or sink. Soak items in solution for 2 - 3 minutes and rinse well. Preferably run glasses through a glass washing machine at a hygienic temperature to rinse. For heavy build up, soak for longer periods.

Bracton Glass Washer:

Place glasses/coffee cups in the machine. Add one ½ (20g) scoop of Bracton Pink to the wash bay of the machine (add more Bracton Pink every 5 washes). Close the door; select the "Soak Cycle" and press start. The machine will wash for 3 minutes. Remove glasses/coffee cups and place on racking to dry.

Pack Sizes:

5 Kg, 10 Kg and 20 Kg.

Notes: *It is important to incorporate a "Glass Care System" in the daily maintenance of glassware. Products used in conjunction with Bracton Pink that will ensure the best possible results are: Bracton Glasswash and Bracton RTU Glasswash, Bracton Descaler and Bracton MR/BR2 glass washers.*

For best results, use either Bracton MR or BR2 glass washers. These machines incorporate a "SOAK" cycle, alleviating the need to hand scrub glasses. Both Bracton MR and BR2 models feature re-circulating water, top and bottom wash and rinse arms, accurate detergent pump, double filtration and hygienic internal design.
