

# Product Data Sheet

## Bracton Rejuvenator – Microbial Oil

*Bracton Rejuvenator will stop the growth of mould, fungus and bacteria in the bar and cellar. With microbial properties, Bracton Rejuvenator will stop the formation of "Jelly Type" mould on beer Pythons and insulation.*

### Product Description

Bracton Rejuvenator is a tea tree based microbial oil for eliminating mould and fungus from damp areas around bars and cellars. Bracton Rejuvenator will stop the breeding of bar flies by removing the bacterial food source they rely on.

When used on a regular basis, mould and fungus on beer pythons is completely eliminated. When used in coolrooms, Bracton Rejuvenator will stop the growth of mould on ceilings, walls and insulated python, leaving long lasting protection from further mould and fungus build up.

### Ideal for use on:

- Under bar areas
- Python (insulation)
- Cool rooms
- Fridge doors

### Characteristics

- Biodegradable
- Non-Toxic
- Non-Hazardous
- Pleasant odour
- Prevents Bacteria
- Easy to use
- Non-Aerosol

### Safety

Bracton Rejuvenator is approved for use in food areas. Please read the safety directions on the product label before use.

### Tools and Equipment

- \* Rag
- \* Sprayer/Atomizer
- \* Warm soapy water (if required)

### Application Procedure

Clean down the area where Rejuvenator will be applied – Bracton "BarMate" (see notes) is best. It is important to remove any mould, fungus and dirt from the area to be cleaned. Dry the surface with a rag and leave to air dry for a few minutes. Apply the Rejuvenator with the sprayer provided and spread evenly where needed. Do not remove or dry excess product, instead clean any excess from floor if drips occur.

Re-apply Bracton Rejuvenator every 4 weeks for best results.

### Pack Sizes

1 Lt, 10 x 1Lt carton and 25 Lt drum.

**Notes:** It is important to clean the area thoroughly before applying Bracton Rejuvenator. Best practice is to use Bracton "BarMate" to remove the bacterial build up and leave the surface clean. This will enable Bracton Rejuvenator to maintain a hygienic surface from time of application.
