

BRACTON

ICE COOLED

DROP-IN POSTMIX COOLER

ECONOMICAL POSTMIX
DISPENSE SOLUTION.

THE BRACTON ADVANTAGE

Maximum Ice Capacity

Featuring a massive 45kg ice capacity, the Bracton unit provides unmatched cooling volume, ensuring drinks stay ice-cold even during peak service.

10-Coil Versatility

Equipped with 10 product coils, our system allows you to serve a wider variety of beverages from a single, compact footprint.

Hygiene-First Engineering

Designed with curved internal walls. Rounded corners eliminate debris traps, preventing bacterial buildup and making the system effortless to sanitise.

Australian Designed

Engineered for local demands, providing a smarter and more reliable cost effective alternative to traditional icebank systems.

615 x 430 x 372 (Drop In Only)

Required Cut-out
570 x 390 mm

Material
High-Grade Stainless

PART NO: DROPIN

ENGINEERED FOR EXCELLENCE

BRACTON
Dispense Equipment

Reliable performance and effortless maintenance.

The Bracton Drop-In sets the standard for ice-cooled beverage dispensing.

TECHNICAL INSTALLATION

Cut-out

The Bracton unit features a larger footprint to accommodate superior cooling volume. Verify counter space for the **570mm x 390mm** cut-out.

Thermal Efficiency

A 30.2mm (1.2") insulated wall effectively shields the unit from the heat generated by nearby underbar equipment, such as commercial dishwashers and refrigerators.

Effortless Sanitation

The curved internal wall design ensures no hard corners for debris to hide. Use non-aggressive dish soap for weekly maintenance.

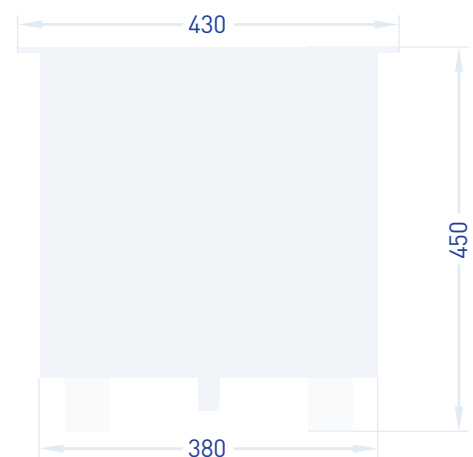

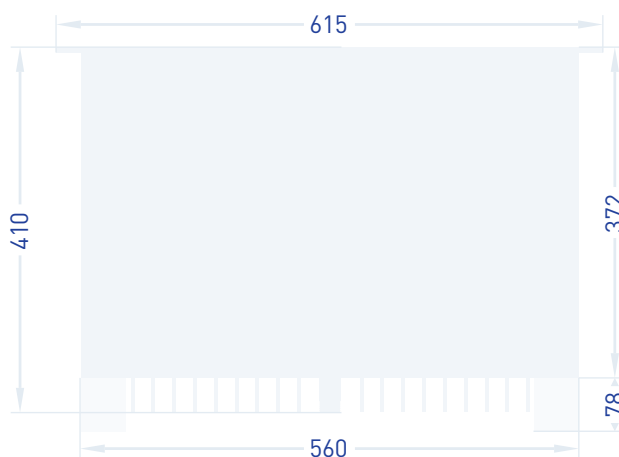

Seamless Compatibility

Fully compatible with standard Wunderbar dispense guns and Bracton post mix towers.

Stepped barb

Stepped outlet barb 10mm/6mm for easy installation.

SYSTEM ACCESSORIES

Bracton Carbonator
9.5L soda generator
