

Product Data Sheet

Bracton Keg Coupling Commercial Grade Disinfectant Ready To Use Spray

Brewery approved and recommended for use EVERY time a new keg is put into use. Bracton Keg Coupling disinfectant RTU will kill any harmful bacteria before it can enter the beer line, preventing poor quality beer.

Product Description:

Approved by all major Australian breweries, Keg Coupling RTU Spray will prevent the growth of bacteria on fittings and components. A highly effective, ready to use solution for disinfecting fittings and components. Keg Coupling Disinfectant will leave a protective film that prevents the growth of bacteria on surfaces, leaving fittings and components hygienically clean.

Ideal for use on:

- Keg Couplers
- Transfer Leads
- Fittings and Fixtures in the cellar

Characteristics

- Food grade disinfecting qualities
- Will not taint the flavour of the beer
- Brewery recommended and approved
- Easy to use
- No rinsing required

Safety:

When using Bracton Keg Coupling Disinfectant follow the safety directions on the label and wear appropriate personal protective equipment.

Directions for use:

Spray Bracton Keg Coupling Disinfectant RTU directly onto keg couplers, transfer leads, tops of kegs, and connection points when tapping any new keg.

Pack Sizes

4 x 1 Lt carton Inc sprayers.
