## Taps and Fittings Soaker

*Bracton taps and Fittings Soaker is a concentrated solution for the cleaning of draught beer system fittings. Fast acting and effective in the removal of all build up and dirt on beer taps and fittings, Bracton Taps and Fittings Soaker will rejuvenate fittings and taps quickly.*

### Product Description:

Bracton Taps and Fittings Soaker is a concentrated solution specifically formulated to remove debris and build up from old and new draught beer fittings. Quick and easy to use, Bracton Taps and Fittings Soaker will remove the most stubborn build up.

### Ideal for use on:

- Draught beer fittings
- Beer taps
- Keg Couplers
- All stainless steel fittings

### Characteristics:

- Fast acting
- Easy to use
- No noxious smell
- No mineral salt acids
- Will remove the toughest build up

### Safety:

Appropriate personal protective equipment must be worn. Always read the instructions on the label before use.

### Tools and Equipment

- Gloves
- Goggles
- Bucket/sink
- Scrubbing Brush

### Directions for use:

All taps, keg couplers and fittings should be soaked on a weekly basis. Mix 500mls of Taps and fittings soaker into 10lt of water. Immerse all parts in the solution for up to 20 minutes. Some fittings may need light scrubbing to remove stubborn build up.

If not using the cleaned fittings/parts immediately, soak with Bracton Keg Coupling Disinfectant after cleaning and store for later use.

### Pack Sizes

5 Lt, 3 x 5 Lt and 25 Lt drum.

**Notes:** Often when cleaning fittings and fixtures, o-rings are damaged and part need replacing. Bracton offers a full range of replacement parts and o-rings for all draught beer fittings. Visit [www.bracton.com](http://www.bracton.com) for a catalogue or call the number below for help.
