

Technical Bulletin

Post mix drop in / under counter ice well (10 coils)

APPLICATION

The Bracton post mix drop in and undercounter ice wells are designed to reliably deliver ice chilled carbonated water and post-mix syrup.

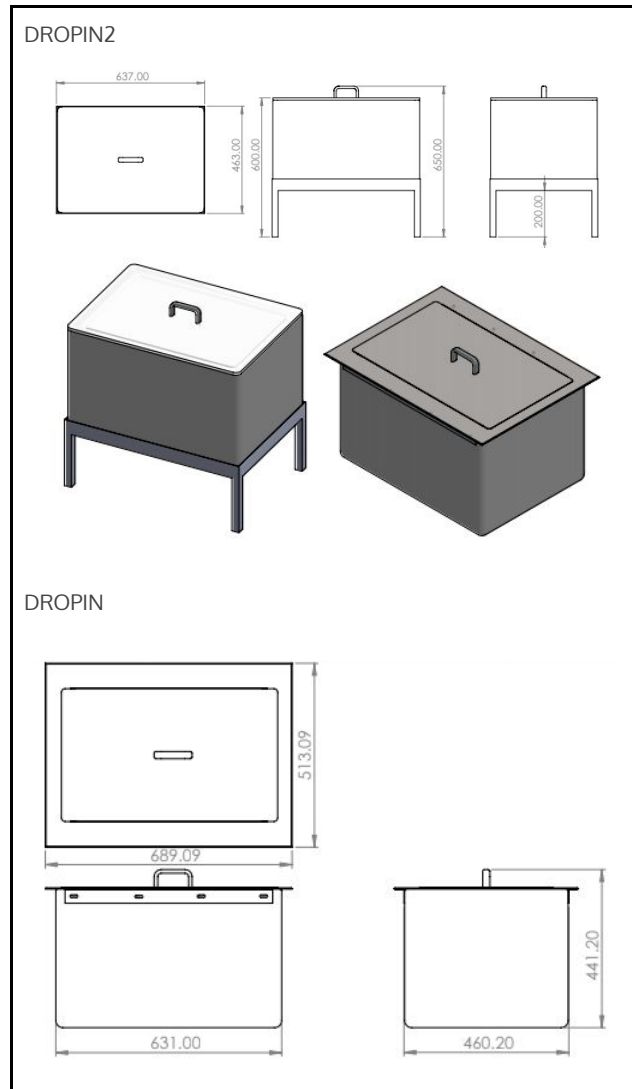

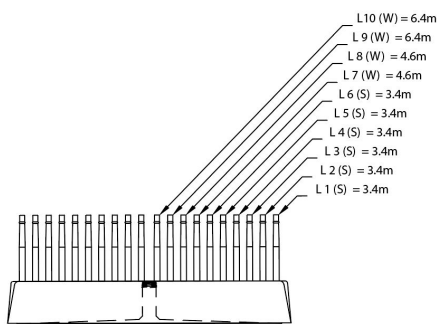

These systems are an economical solution, ideal for small to medium venues where size and cost restrictions exist. Ideally partnered with our high capacity dry carbonator for best performance (PART: CR1000).

FEATURES

- 10 coils (8 syrup, soda, still)
- High performance insulated enclosure
- Under counter or in-counter installation
- Can be installed with one or two post mix guns
- ~30 litre capacity
- 3/8" in/out tube JG ready

NOTE

Postmix gun, carbonator, regulators sold separately.

SPECIFICATION

CODE	DESCRIPTION	SIZE (WxDxH)
DROPIN	Postmix in-counter ice cooled drop-in	468x631x390mm§
DROPIN2	Postmix undercounter ice cooled drop-in	463x637x650mm*

§ height measured from base of tank to bench height.

* height can be modified on request, standard under tank clearance 200mm.
